

Judy Zhang

judyz1594@gmail.com | <https://judyzhang05.github.io> |  [judy-zhang-](#) | Brooklyn, NY | (719) 200-9526

Profile: Emerging UX and Product Designer with experience designing accessible, data-informed digital products across enterprise and startup environments, including work on product teams at LinkedIn and through a Google mentorship program. Brings strengths in UX research, design systems, prototyping, and front-end collaboration to translate complex requirements into clear, user-centered solutions.

EDUCATION

CUNY - Hunter College

Manhattan, NY | August 2022 – May 2026

Bachelor of Arts in Emerging Media; Minor in Computer Science

Daedalus Honors Scholar | **GPA: 3.93**

[Google UX Design Certificate](#) | Online

June 2024 – July 2024

- UX research, inclusive design, wireframing, and high-fidelity prototyping in Figma
- Completed rigorous training designed for entry-level job readiness through 3 comprehensive portfolio projects

SKILLS

Design: Information Architecture, **Wireframe**, **Mockups**, **Interaction Design**, **Responsive Design**, **Competitive Analysis**, UX Writing, Prototyping, **Design System**, **Web Content Accessibility Guidelines**

Process: **Human Centered Design**, **Product Development Lifecycle**, Design Thinking Framework, AI Design Thinking, User Testing, Enterprise Design Thinking, As-is and To-be scenario map

Technical: Adobe Creative Suite, **HTML**, **CSS**, **JavaScript**, React, **Figma**, Miro, FigJam, **Maze**, **Heap**

Languages: English (Native), Cantonese (Native), Japanese (Intermediate)

EXPERIENCE

UX Design Intern, Precisely

Remote | June 2025 – August 2025

- Enriched user experiences throughout a data-empowered communication service platform by consolidating on best patterns of consistency for style and copy of the **design system's** UI components.
- Spearheaded essential research on optimal approaches in communicating changes to clients that addressed critical pain points users faced with the automatic deployment of changes to production.
- Resolved design conflicts with scientifically validated solutions while adhering to **web content accessibility guideline** considerations to produce a more accessible user experience.
- Conducted **competitive analysis** on direct competitors and explored tools like **Maze** and **Heap** to analyze and gather user's interaction to make informed design decisions.

UX/UI Design Intern, Gratitude

Remote | March 2025 – June 2025

- Collaborated with product designers to launch a mentorship-focused professional networking startup.
- Designed a scalable mobile design system with reusable, **accessible** UI components, accelerating MVP development.
- Presented iterative design solutions and synthesized feedback to improve cross-device experience consistency.

Data Analyst Intern, Lazard

New York, NY | January 2024 – February 2024

- Built interactive data visualizations using Streamlit, Plotly, and Pandas to translate complex metrics into actionable insights.
- Designed dashboards to communicate key financial data to stakeholders, improving transparency and engagement.

Software Engineer Intern, LinkedIn

New York, NY | January 2023 – February 2023

- Developed a front-end application using **HTML**, **CSS**, **JavaScript**, and Firebase to track real-time page metrics.
- Enhanced usability through micro-interactions, typographic hierarchy, and optimized navigation and state management.

PROJECTS

Application Motivator, Google Mentorship

September 2025 – May 2025

- Designed an AI-powered job application tracking platform with personalized listings and a gamified user experience.
- Created **wireframes** and high-fidelity **mockups** in **Figma** following the **product development lifecycle**.
- Led capstone execution, making strategic design decisions that improved workflow efficiency and overall UX impact.
